Clean up after your pet

Did you know that pet waste has bacteria that makes our lakes and rivers unsafe for swimming and other recreational activities? That happens when **pet waste left on sidewalks or yards gets washed into storm drains** or roadside ditches that lead directly to our lakes and rivers.

What can you do? Simple.

No matter where you are **dispose of your pet's waste promptly** in the toilet or trash.

Find out more at www.nirpc.org.

Brought to you by the Northwest Indiana MS4 Community Partnership.
